[About Us](#) [Career](#) [Blog](#) [Events](#) [Contact Us](#)

Description: A financial solution app for individuals and small businesses combining debit and credit card functionalities.

Challenge: Introducing a unified card concept for debit and credit.

Process: Conducted field surveys, developed wireframes, and tested flows for seamless user adoption.

Result: Increased user signups and seamless card-switching functionality

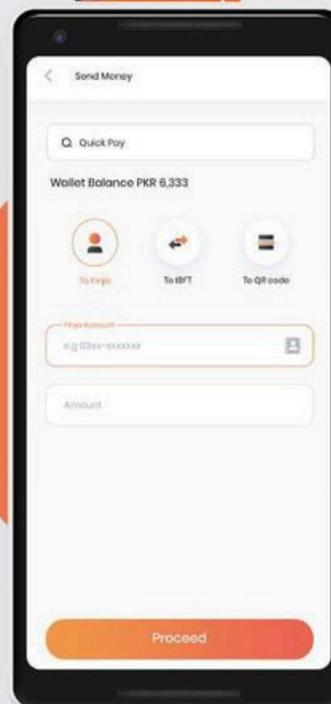

FINJA CARD IS HERE

Download the app and enjoy command over your life with Finja Card

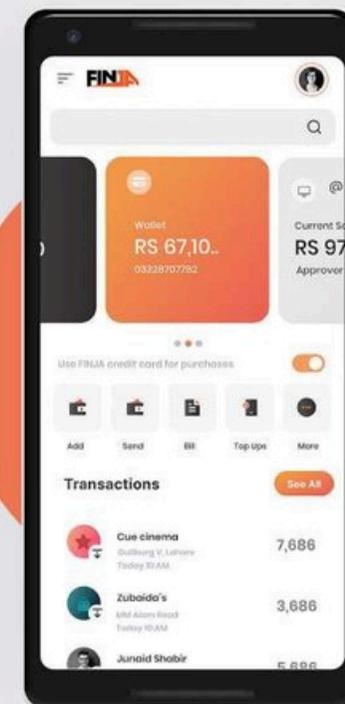

SKIP ADDING PAYEE

Just copy the account numbers and paste it into the payee which

TRANSFER MONEY ON THE GO

One stop platform to pay friends and family or manage bill payments

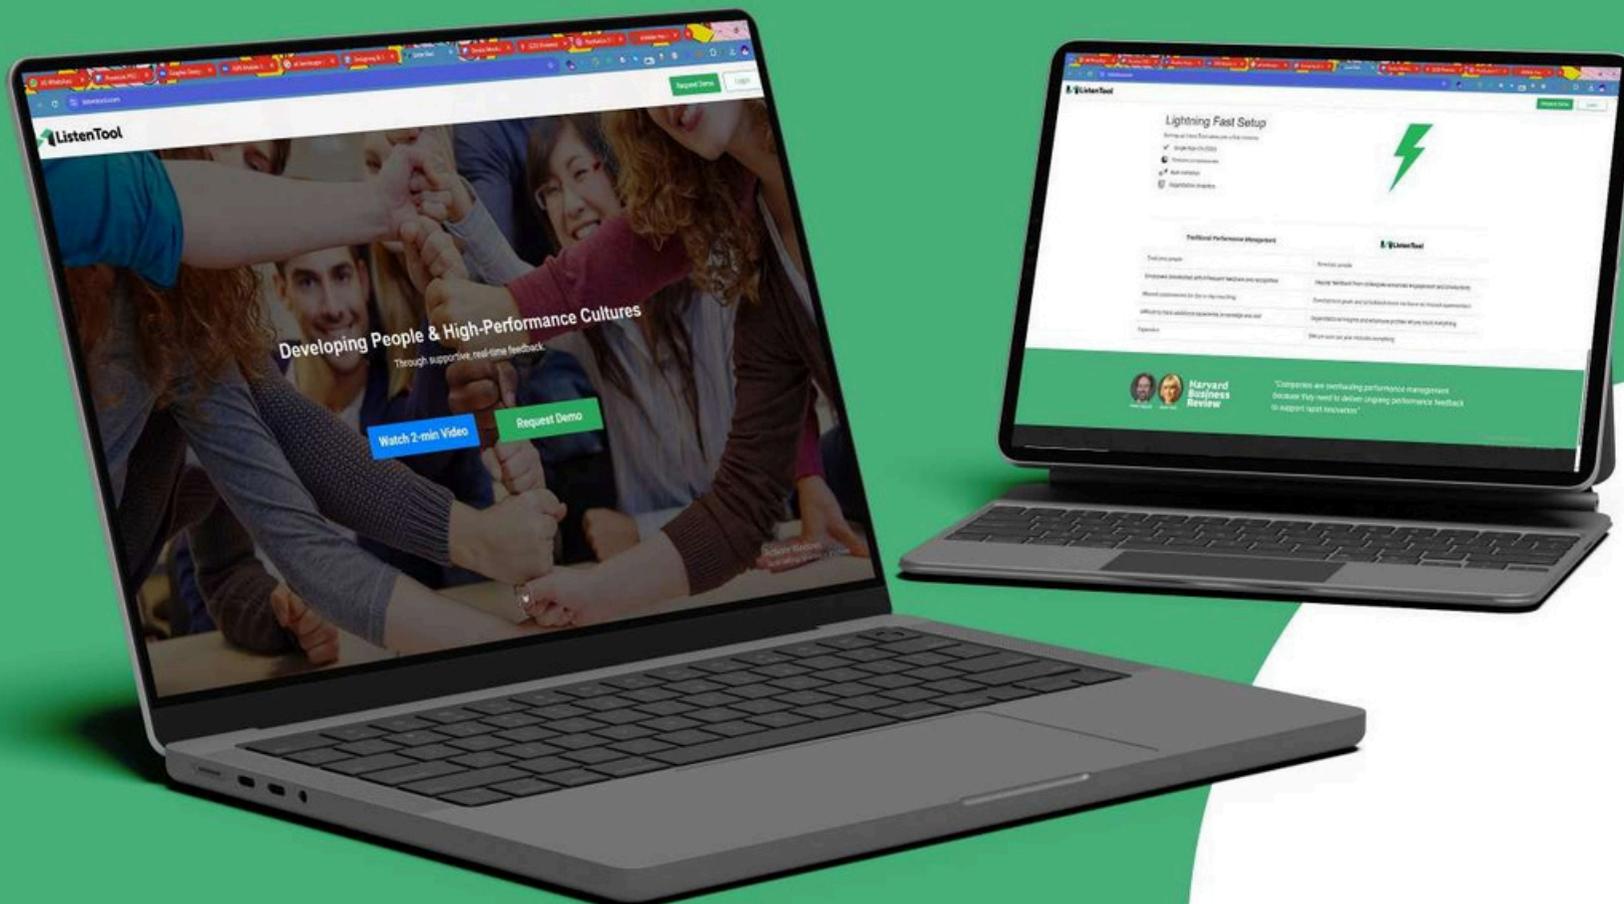

Description: A modern feedback platform for employee development.

Challenge: Revolutionizing traditional 360 feedback with continuous conversations.

Process: Created personas, sketches, mockups, and conducted user testing for validation.

Result: Enhanced organizational engagement through effective feedback mechanisms.

FINKA Pay

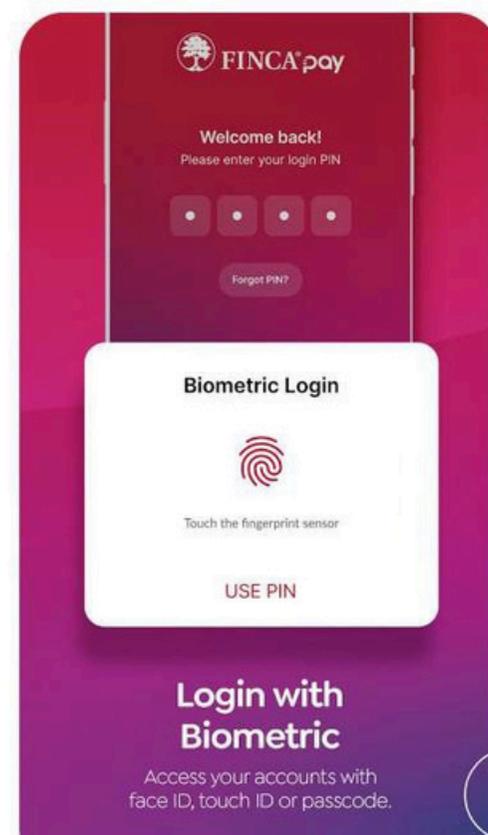

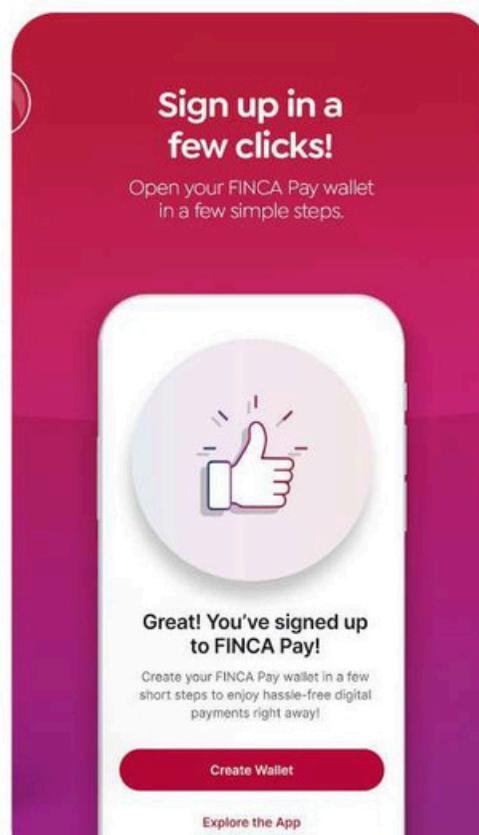

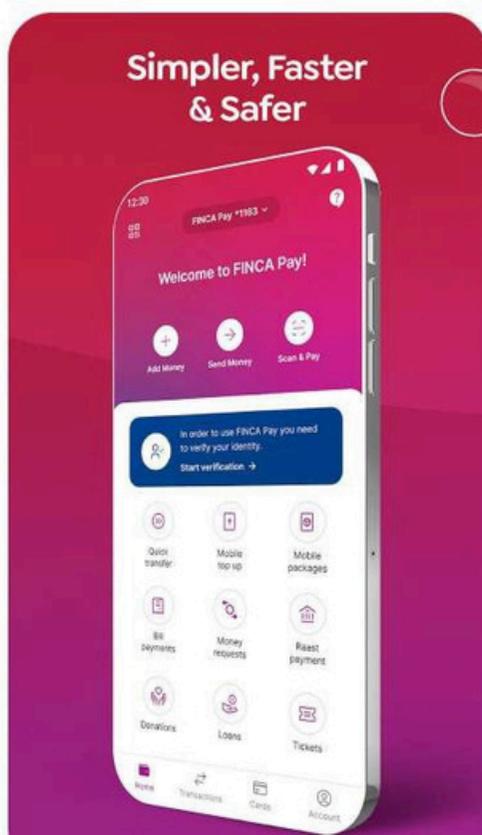

Description: Pakistan's first digital payment wallet.

Challenge: Redesigning flows for user-friendly and frictionless transactions.

Process: UX reviews, user testing, and iterative wireframing.

Result: Successful launch with high user adoption and continuous growth.
